

The interior of Atelier Briefftaube has been carefully manufactured and selected by local craftsmen. A carpenter took the challenge to transform a former typography closet 4) into a side-board with the option of becoming an independent furniture rolling on wheels. The kitchen had been designed in collaboration with PM kitchen studios and got a beautiful eye catcher with a rose-marble surface 2) deriving exclusively from Italy. The wooden bench from my beloved aunty 3) got an exotic look with the balinese fabric imported from a vacation. Last but not least the opalin glass lightning 1) is a treasure, found in Gent at a vintage design reseller.
